MEMORANDUM FOR THE RECORD

25X1D

SUBJECT : Briefing of NPIC Staff on [REDACTED]  
(OX CART [REDACTED])

25X1D

25X1D

1. On Friday, 8 July, a briefing was given at NPIC, for the key members of Mr. Lundahl's staff, on the characteristics and potentialities of the [REDACTED]. The roster of attendance is given in attachment 1. The agenda for the briefing is given in attachment 2.

2. This briefing was a prelude to a briefing for the interpreters scheduled for 15 July; the intent was to give the key personnel a shortened version of the detailed briefing planned. The agenda for the 15th briefing will be the same as this one.

3. The presentation was generally well received. Concern was expressed about the readability of the clock recording and correlation with the SC & DM. In addition, some concern was expressed about the need for test imagery of typical targets taken from the OXCART vehicle.

4. I suggest that this briefing be given in OSA (and DD/S&T?) at an early date.
